## About Me

4th-year Computer Science & Engineering student at Adama Science & Technology University with experience in full-stack web development using React (Vite), Node.js, MySQL, HTML, CSS, and JavaScript. Skilled in Python for problem-solving and algorithms. I have built several projects including a Netflix clone, Amazon-style eCommerce site, Q&A platform, and personal portfolio. Passionate about solving real-world problems, learning new technologies, and contributing to innovative software projects.

## Projects

### Netflix Clone – React, Firebase, TMDB API

- Built a Netflix-style streaming app with React and TMDB API for browsing movies and shows.
